#### Power Related

High priority to be given to power sector and adoption of a liberal policy regarding transfer of land and property for power projects in the private sector including those with foreign investment.

- 1) A special Industrial Electrification Programme to be framed in order to provide 5 KM of power supply to industrial units wherever required.
- 2) Grant of subsidy for power tariff and cost of non-conventional power generation units like windmills, solar energy units and bio-gas units subject to certain conditions
