

### Infrastructure Development

- Infrastructure Project means any project for the creation and modernization of Special Economic Zones ; roads, bridges and culverts, railway lines, power plants, electric sub-stations and transmission lines, water-supply and storage facilities undertaken pre-dominantly for use by industrial units, ports, airports, container terminals, bonded warehouses, satellite townships around industrial centers, film cities, film studios, transport and telecommunication facilities, common effluent treatment plants, tool rooms, R & D Institutes, Technology laboratories/Centers, Quality testing labs/Centers, exhibition and conference centers, industrial townships, industrial estates, entertainment parks, golf courses and other tourism-related infrastructure and social infrastructure such as schools, technical and management institutes and hospitals, subject to eligibility criteria to be notified later.

### Infrastructure

The State Government accords top priority to development of physical and social infrastructure through public-private partnership. In particular

- (a) The State Government will pursue an active policy of encouraging establishment and maintenance of Industrial Parks and Industrial Estates by the private sector in the growth centers already identified and in other areas.
- (b) The Government will seek and facilitate private investment in physical infrastructure such as power, telecom, roads, railways, ports, airports, logistics, water, R. & B. Centers, quality and testing labs, Technology labs and other infrastructure projects.
- (c) The Government will adopt a policy of constructive partnership with private sector for establishment of social infrastructure viz., good schools and colleges, institutions for technical and professional training, hospitals,

housing, hotels and restaurants, sports complexes and recreation centers.
