

Single Window Policy

High power committee

To achieve this objective, the Government will take steps to strengthen the manpower and financial base of the network of primary development and service institutions. The Government has set up a High Power Committee with various functions and responsibilities which play a big role in the promotion, execution and working of industrial projects. It will be the primary responsibility of this High Power Committee to co-ordinate efforts and monitor the implementation of the State Industrial Policy and to provide guidance in inter-departmental issues involving major policy decisions.
