Technology Support

- Assistance for technological upgradation : interest subsidy @ 3% on purchase of all capital equipments necessary to be installed for technology up gradation for a period of 5 years subject to a maximum of Rs.3 lakhs per year, to the small and medium sector units.
- Technology Acquisition: Acquisition of technology is also a complex process. It may perhaps not be possible for individual small units to acquire technology on their own. The Government therefore plans to create an administrative set up in the Industries Commissionerate comprising technology experts, to source, assess and acquire appropriate technologies. For the purpose, the Government has decided to create an initial revolving fund. The administrative set up will procure the technology and in turn will transfer it to individual units at reasonable price. This will also include the technologies, which are generic in nature and useful to the whole cluster in the form of drawings and designs mainly for SSI units. The technology transfer will also include the training component. This benefit could be extended to recognised clusters as well.
