

FISME welcomes new President

A Post Graduate in Commerce having a degree in Cost Management Accounts and a qualified Company Secretary, Dinesh Tripathi is Managing Director of a medium sized glass processing unit based in Mumbai.

NSD Global, which Tripathi established a decade ago, is a producer of variety of safety and art glass products used for applications in the field of Architecture and Structural engineering. The products have made a niche market for themselves on the strength of quality and innovation.

Before becoming President Tripathi has held position of Vice President of FISME. He also holds the position of Honorary Secretary of the Federation of Safety Glass (FOSG), the apex body of safety glass manufacturers in India.
